FOCUS office

Focus Office is an online restaurant portal that allows operators to manage their menu, employees, and order entry all from one platform. Whether they want to add special menu items, make time card adjustments, or edit employee profiles; Focus Office integrates seamlessly with Focus POS systems.

FOCUS central

Focus Central is a web-based reporting platform that offers access to consolidated information from multiple locations. Managers can access store-level reports, trends, and graphs or build their own custom dashboard.

ACCESSIBILITY

SECURITY

AUTOMATIC UPDATES

24/7 CUSTOMER SUPPORT

DATA BACKUP

REDUNDANCY

FOCUS mobile

Focus Mobile allows managers to access all of their restaurant operations remotely through their smartphone or tablet. The myFocus mobile app provides detailed sales, labor, and lucrative status information in realtime.

SUBSCRIPTION *includes*

SOFTWARE

Focus POS software is the engine that drives your business. Features include remote access to labor and sales reports, forecasting and scheduling tools, high-speed credit card processing, and easy to navigate screens.
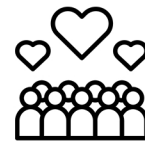

GIFT CARDS

Focus Gift integrates seamlessly with Focus software to provide a centralized point of management for all your gift cards. Managers can easily issue cards direct from their terminals, as well as track and reload balances for customers.

LOYALTY

Focus Loyalty allows restaurants to offer rewards while gaining valuable customer data. Managers can send targeted marketing campaigns and build their customer base, encouraging increased guest retention rates.
